with promo code
RONDO17*

- Whisper quiet operation
- Brushless DC motor enhances performance and durability
- Digital display
- Auto-calibrating microprocessor
- Imbalance detection with auto cutoff for safety
- Includes replaceable strip rotor and adapters for 0.2mL tubes, 0.5mL tubes and strips
- Electronic brake for immediate stop on lid opening
- Last run memory feature for adjustable speed
- Includes countdown timer: 1 to 25 minutes and infinite mode
- Max speed: 6000rpm or 2000g
- Capacity of eight, 1.5 / 2mL tubes and two, strip tubes
- Suitable for use in hoods and cold rooms

The variable speed CappRondo microcentrifuge has advanced features including a digital display, a timer function and a digital calibration function.

It comes equipped with an electronic safety brake system that prevents the lid from accidentally opening until the rotor comes to a complete stop. CappRondo also offers quick operation by simply closing and opening the lid. The imbalance cut-off safety feature notifies the user in case the tubes are unevenly loaded.

Bright digital display for speed and time.
